

EXPRESS ASSEMBLIES LTD
AT THE 'CUTTING EDGE' OF WIRE & CABLE MANUFACTURING

RoHS COMPLIANCE STATEMENT

Introduction

The RoHS (Restriction of Hazardous Substances) directive is an EU initiative aiming to restrict the use of known dangerous chemicals and substances.

As of 1st July 2006, new regulations came into force stating that any electrical and electronic products must not contain and exceed maximum concentration levels (0.1% and 0.01% for cadmium) of the following substances:

- Lead
- Cadmium
- Mercury
- Hexavalent Chromium
- Polybrominated Biphenyls (PBB)
- Polybrominated Diphenylethers (PBDE)

Company Focus

Express Assemblies Ltd ensures to provide all customers with RoHS compliant products as we pride ourselves on working to the highest possible quality working practices.

We understand the importance of RoHS requirements, and the effects they have in minimising the risk posed to human health and the environment. We have taken various quality measures to ensure we comply with all laws and regulations.

Stock Control

All stock has been monitored and maintained for RoHS compliance which are all approved, and any new products purchased are bought with RoHS approval in mind. Technical specification and certificates are provided upon receipt of new products.

Material Assurance

Express Assemblies Ltd purchase a large variety of materials and components and the need for quality approval has never been more important.

In our business, we procure extremely high quality components and deliver an unbeatable manufacturing system, whilst aiming to retain our environmental focus. We keep our customers' requirements in mind and can assure them that we comply with RoHS procedure.

Our parts are sourced from RoHS approved suppliers providing our customers with the assurance that their final products utilize the best materials and components.

Supplier Approval

Our supply chain network reviews and approves our suppliers to ensure they meet the relevant compliance standards that are required.

However, we cannot provide technical data for our products as we rely on this information from our suppliers.
